BENIITTA HUTTUNEN

Junior Full-Stack Web Developer

Lisbon, Portugal / Helsinki, Finland
Portfolio • LinkedIn • GitHub

SUMMARY

Full-Stack Developer with a background in social services. I bring years of experience solving real-world problems, working in teams and driving meaningful change. Skills I now apply to building software.

SKILLS

Frontend: React, TypeScript, Next.js, JavaScript, HTML & CSS
Backend: Laravel, PHP & MySQL
Languages: Finnish (Native), English (Fluent)

EXPERIENCE

Frontend Developer Intern - Unelma Platforms **Jan 2026 - May 2026**

- Built UI features for UnelmaPay, including payment flows, service selection and customer forms, using React, TypeScript and CSS
- Integrated REST APIs with Axios, handling client-side validation, error handling, and dynamic data fetching
- Collaborated with a remote development team using Git and pull request workflows

Social Services Worker - Niemikotisäätiö **June 2020 - August 2026**

- Provided person-centered support to individuals with mental health challenges, neurodivergent conditions and substance use issues as part of a multidisciplinary team.

EDUCATION

Full-Stack Web Developer **Jan 2025 - August 2026**

Business College Helsinki

- Studied JavaScript, React, PHP and full-stack web development, including a 2-month project with full team ownership of planning, roles and execution.

Bachelor of Social Services **Jan 2016 - Feb 2020**

Metropolia University of Applied Sciences
